

“ClicData’s customer support is phenomenal. Not only were the support people quick to respond to all our queries, they made us feel they really wanted to help.”

Meg McCready
QA Officer

Comprehensive reporting to the Board

We track a number of organizational and program activities and outcomes which we need to report to our Board of Directors in the cleanest, most streamlined format possible. We built our first dashboards using Excel, but the results were a little clunky. We checked out a few systems, most of them confusingly complex and way out of our budget. Then we discovered ClicData. We loved the clean look, the simplicity of use and the real-time interactivity.

We now have an affordable, professional system that can easily adapt to meet our changing needs.

About George Spady Society

The **George Spady Society** is a fully accredited, not-for-profit organization. We provide a continuum of support services to people with complex life circumstances associated with substance-related disorders, mental illness and homelessness.

Through client-centered, evidence-based best practices, we empower our clients to improve their lives.
