

“OUR BIOBANK OF PARTNER AND CLIENT DATA IS CRITICAL FOR OUR CLINIC. CLICDATA HELPS US TAP INTO THE DATA FROM ANYWHERE.”

Dominique  
CEO

ONCOVET

## Clinical Trials Performance Metrics

---

Oncovet needed the capability to track several key areas; 1) the Veterinary Clinical Centers activities, 2) the samples characteristics, 3) the related financials and 4) the client follow-up for tissues analysis. OCR selected ClicData because it allows them to get a relevant overview of the BioBank activity and to quickly analyse the main indicators on a real-time basis. “We are able to rapidly get back to our Veterinary Clinical Center partner to optimize the BioBank management: moreover, we are able to show the different characteristics of our BioBank to our clinical partners and our clients wherever we are.” says Dominique.

## About Oncovet

---

OCR is specialized in the conception and management of GCP clinical trials on Dogs & Cats models with naturally occurring pathologies for efficacy assessment of drug candidates for Human Health. OCR’s innovative offer is at the forefront of ethics of research involving animals since Dogs & Cats included in clinical trials are treated as real patients with safe new therapies under development for Human ([www.oncovet-clinical-research.com/](http://www.oncovet-clinical-research.com/))
