

1. CHALLENGE

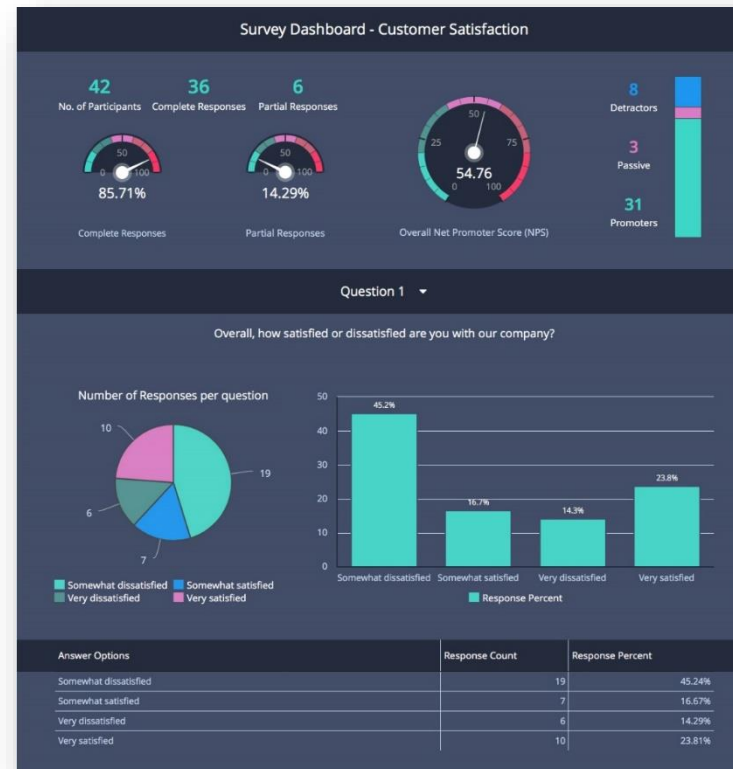

Need to read live stats efficiently and easily

This company needed to condense hundreds of thousands of lines of Excel to their commissioners in a way that made sense.

Problem: Excel was too static and other dashboard providers simply too expensive.

2. RESULTS

Live updates and **interactive elements!**

3. EXPERIENCE

Anne, Head of Operations
@ FDS Consultants

“Updating and publishing our dashboards to our clients with ClicData has saved us lots of time and presenting the data in such interactive format is certainly a competitive advantage!”
