

1. CHALLENGE

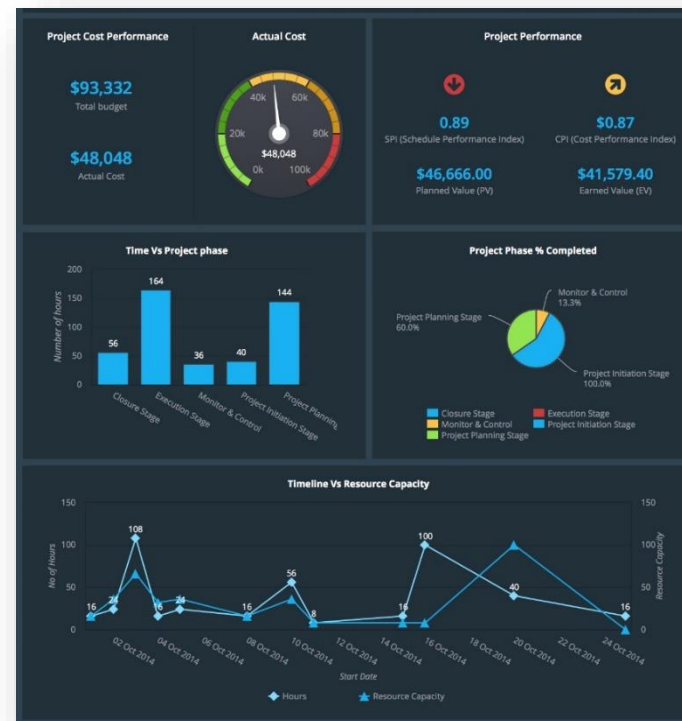

Need to share key indicators — clinical trial results — in real time

This company had two distinct needs:

- Track Veterinary Clinical Centers' activities to optimize the BioBank management
- Allow their clients to view the BioBank characteristics from wherever they are, in real time.

2. RESULTS

Clinical Trial performance **accessible from anywhere.**

3. EXPERIENCE

Dominique, CEO
@ Oncovet

“Our biobank of partners and client data is critical for our clinic. ClicData helps us tap into the data from anywhere.”
